

MAEL 205

Lottery Terminal

MAEL 205 is a super-compact, full-featured family of terminals for the automation of Lotteries and Gaming Organizations; the footprint of the machine is just over 22 x 31 cm.

MAEL 205 guarantees integration into advanced networks through a PC-standard software and hardware architecture. Innovative design, ease of use and security make this terminal suitable for any point of sale.

**OLIVETTI
TECNOST**

Lottery Terminal

Super-compact

The extremely reduced footprint makes this terminal particularly suitable for installation in small sales environments and on any type of counter.

Full-featured

MAEL 205, with its full integration of peripherals, guarantees ease of use and high-level performance. In a single body the system contains the coupon scanner, ticket printer and keyboard. The screen can mount an optional touch screen either to complement or substitute the keyboard.

Full connectivity

MAEL 205 can be connected to a multitude of networks (satellite, GPRS, GSM, radio, fixed telephone lines, etc.) using the most appropriate protocols (TCP/IP, X-25, etc.) thanks to the standard architecture adopted.

Physical characteristics

Dimensions: 226 x 212 x 317 mm (WxHxD)
Weight: ~6 kg.
