

MAEL 380

Lottery Terminal

MAEL 380 is the advanced family of terminals for the automation of Lotteries and Gaming Organizations.

MAEL 380 meets the most rigorous requirements in terms of security, performance and user-friendliness, allowing easy and fast activation of new games and services. Using PC-standard software and hardware architecture, **MAEL 380** guarantees high configurability and integration into advanced network scenarios.

TECNOST**

Lottery Terminal

Easy to use

The large 12-inch touch screen colour display allows for a very user-friendly interface thus simplifying and minimizing the need for training.

Advanced scanning

The scanner reads coupons in any direction, totally independent of the skew factor. The feeder can also accept a stack of gaming slips for automatic processing. Furthermore the unit can handle full-page A4 documents to provide extra services.

Full connectivity

MAEL 380 can be connected to a multitude of networks (satellite, GPRS, GSM, radio, fixed telephone lines, etc.) using the most appropriate protocols (TCP/IP, X-25, etc.) thanks to the standard architecture adopted.

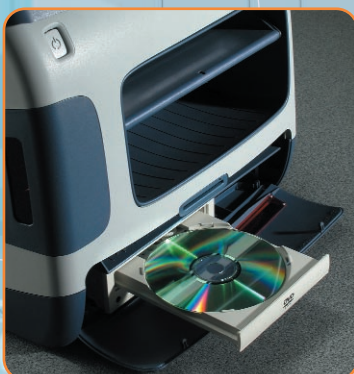

Physical characteristics

Base unit: 360 x 403 x 422 mm (WxHxD); ~12 kg.
Printer: 190 x 205 x 284 mm (WxHxD); ~2,2 kg.

Main features and options
