

MAEL 901

Lottery Terminal

MAEL 901 is a player-activated terminal for winning ticket verification at the points of sale of Lotteries and Gaming Organizations.

MAEL 901 is a self-service unit which allows players to get official information on their tickets in full privacy and agents to concentrate on their main business activities.

Lottery Terminal

Easy to manage

MAEL 901 can be connected to any Lottery terminal or host system for winning ticket verification. Through the integrated bar code reader, MAEL 901 is able to read the code line printed on any Lottery receipt or scratch ticket, issue a request of verification to the host system and provide the answer to the player.

Easy to use

The player only needs to place the ticket in the appropriate slot and read the result on the display. The system automatically detects different types of game. The integrated keyboard may be used for additional services.

Easy to install

MAEL 901 can be installed in any location, fixed to the wall or on a desktop, always offering the best visibility and ease of use.

Physical characteristics
